DETAILED ACTION

1. Claims 1-47 are pending. Claims 48-54 have been canceled without traverse in response to the Election/Restriction Requirement filed 01/18/05. Group I, claims 1-47 will be examined and claims 48-54 will be withdrawn from consideration.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1-47 are rejected under 35 U.S.C. 101 as non-statutory. The method claims as presented do not claim a technological basis in the body of the claim.

Without a claimed basis, the claim may be interpreted in an alternative as involving no more than a manipulation of an abstract idea and therefore non-statutory under 35 U.S.C. 101. In contrast, a method claim that includes in the body of the claim at least one structural/functional interrelationship which can only be computer implemented is considered to have a technological basis [See Ex parte Bowman, 61 USPQ2d 1669, 1671 (Bd. Pat. App. & Inter. 2001) –used only for content and reasoning since not precedential]. For example, claim 1 should read “A computerized method for conducting a trading exchange, comprising: distributing a first set of entries in at least one activity; and conducting after market trading at the computer of at least one of the entries between at least one buyer and at least one seller”.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3624

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The preamble recites "conducting an exchange". It is unclear from the claim limitations what exchange is being conducted. The first claim limitation recites "distributing a first set of entries in at least one activity". Who or what is distributing the entries and what is the activity? Is a person distributing the entries or is a computer distributing the entries? Is the activity a market trading activity? Steps appear to be omitted from the claim.

Claim 1 recites the limitation "market trading" or "first set of entries" or "at least one buyer and at least one seller" in both claim limitations. There is insufficient antecedent basis for this limitation in the claim.
